

00;00;14;38 - 00;00;42;27

Speaker 1

Hey, y'all, and welcome to this episode of Creating with Mr. Dairy Barry. I'm so excited that you're here. I'm Mr. Dave Barry Dairy. Like a cow, Barry. Like a fruit. And I am excited to show you something extra special today because there's a little bit of me in today's creation experience. And and it's inspired by my favorite book, Nerdy Corn.

00;00;42;38 - 00;01;08;15

Speaker 1

Have you ever heard of Nerdy Corn? It was written by my friend Andrew Root, and it was illustrated by Aaron Cron. And Nerdy Corn is one of my favorite books because it's all about this fabulous, fabulous unicorn who is super smart, super brilliant. She knows everything about tech. She knows all the things that you could possibly imagine about science and math.

00;01;08;39 - 00;01;26;38

Speaker 1

And her name is Fern. And and sometimes, though her friends, they laugh at her. They call her a nerd because she's so smart. But I mean, who doesn't want to be extra smart? I want to be extra smart. You want to be extra smart? I want to know things. You want to know things. Why would they call her nerdy Cornwell?

00;01;27;12 - 00;01;48;41

Speaker 1

In the book, there is a problem that arise as all of her friends are having a big party, and the party doesn't go as planned because there are some technical difficulties with the music, with something behind the scenes that they want special to happen and it won't work. And guess who they have to call Fern to come fix it.

00;01;48;57 - 00;02;23;44

Speaker 1

And of course, Ferne is an awesome person and she runs to fix the problem and her friends realize how valuable she is. You know all this talk about unicorns. This inspired me. Can I put on my unicorn horn? I'm just going to put it on, because here's the thing. I love a costume. I love a costume, especially when I'm creating, because sometimes when you're in costume, it can help you create a character like this is nerdy corn and I don't know if y'all know this, but my real name is Jed, so I'm going to be nerdy.

00;02;23;44 - 00;02;46;41

Speaker 1

Corn's best friend, Jenny Corn. Yeah, I'm going to be Jedi Corn. And this. This inspired me to be Jedi corn. This book inspires the Jedi corn. But you know what else I need? I have some cool red glasses, so

I have glasses like nerdy corn. But I need you to have red glasses. I need you to create some red glasses with me today.

00;02;46;50 - 00;03;03;12

Speaker 1

Now, you're going to need a couple of pieces. You're going to need the the glasses. And you're going to need the arms of the glasses. Let me show you how to make these really quickly. You need a red piece of paper, maybe a red piece of construction paper. This is called cardstock. If all you have is white paper.

00;03;03;14 - 00;03;19;54

Speaker 1

Guess what? You can have white paper and then color it red with a marker or crayon or whatever. So to make the glasses, you may be thinking, Oh, I can't make red glasses. You know I can't. Yes, you can. I believe in you because I'm going to show you the easiest way to make a pair of glasses very quickly.

00;03;20;12 - 00;03;41;44

Speaker 1

You are going to draw all the number eight big and fat, and then inside the circles of the eight, you're going to draw two other circles. Those are going to be where your eyes go. Now, we're going to have to cut these part out. So we're going to put X right there because that helps us know where to get rid of them.

00;03;41;51 - 00;04;04;46

Speaker 1

Put the X on this page and show you how to do it. Then you are going to make two arms for the side of the glasses and you're going to make them almost like legs with feet. See how making long legs with feet. And then you're going to cut these out. I've already cut out a pair for us so that you could see how it works.

00;04;05;02 - 00;04;23;52

Speaker 1

All right, now, then you need to cut out the inside of the circle. You're just going to cut out just this part here. You say mystery. How to get my scissors in there. What? You're going to fold just a little bit, make a snip so you can get to get your scissors down in the hole. Be careful there because you don't want to snip your finger.

00;04;23;52 - 00;04;43;08

Speaker 1

You've got to be very careful when you're using scissors. Even you grown ups out there. If you're watching and making, I hope you are creating with us, you're going to cut those circles out because that's where your glasses, that's where your eyeballs are going to go. Okay. So you're going to cut those out because remember, you're trying to be

JD Corn, too, or you can come up with your own name.

00;04;43;31 - 00;05;05;33

Speaker 1

Like if your name is Betty, you could be Betty Corn. If your name is Kin, you could be candy corn. If your name is Josh, you're Josh Corn. What if your name is Sequoia? I remember I used to have a sweet student named Sequoia. Then you should quit corn. Yeah. Whatever your name is, you could put corn at the end of it and be this.

00;05;05;55 - 00;05;25;45

Speaker 1

But I said, JT Corn, because you're going to have some red read glasses just like Mr. Debris did. Okay, so look, now you've got your glasses ready. You need your arms on there. Here's what you got to do for your arms. If you have some tape nearby, your mom, your dad, your caretaker, your teacher, whoever, you just get a little piece of tape.

00;05;25;56 - 00;05;42;50

Speaker 1

They don't have to be perfect because remember, we're just creating here for fun and you're going to just take them to the sides. So here's the way I do it. I put a little piece of tape there, and then I put the arm here, let me do it this way. I show you better put the tape there in the turn over and then put the arm just right there.

00;05;42;50 - 00;06;00;59

Speaker 1

Just stick the arm right there on the tape. We're going to do one on this. I do remember it doesn't have to be perfect because we're just playing here. That's what we're doing. We're just playing and creating and making art and loving it all. So we're going to take this, put the tape there, and then we're going to take our arm.

00;06;01;27 - 00;06;18;23

Speaker 1

Oh, look what I did. I knew I made them backwards. I knew I made them backwards. When you make your feet, you got to do one this way and then turn it, make one another way. Let me show you what I mean. Here, here, here, here. I love that I did that. So you could see the process unfolding right here.

00;06;18;23 - 00;06;39;01

Speaker 1

And we're going to cut out that one that way. BE It would be correct to be correct. Correct, correct. Maybe it'll be correct. I don't know. We'll see. That is the beauty of creating is that you're learning the whole time. That's why our art and creating is so important, because it helps our brain just be so engaged in what's happening.

00;06;39;11 – 00;07;12;13

Speaker 1

Look, that I fixed it. I fixed it. And then now I pick it up and I fold it and look at here, you've got some red glasses just like me. Now they're going to sit on my glasses and now here it is is Jedi corn. Tada. This is so much fun. I love making with y'all. I love creating with y'all and I love seeing you turn from nerdy corn into Jedi corn or whoever you are.

00;07;12;13 – 00;07;35;56

Speaker 1

Corn. Mattie Corn. Katie Corn. Terry Corn. Maggie Corn. All the corn. All of the people. Taylor Corn. I mean, all of you, all of you serve the corn. Lauran Corn all of you, you're out there in the world. Just whoever you are, put on your red glasses. And now not only have you created these glasses, but now you get to create your character.

00;07;35;56 – 00;07;55;55

Speaker 1

What does your character like to do? What do they do? They like to dance. Do they like to sing? Do they like to type on the computer? Do they like to write stories? What do they like to do? Come up with the character who you are, and I want you to tell me all about it. Tag me on social media atmosphere debris app on Twitter.

00;07;55;55 – 00;08;24;35

Speaker 1

Mr. Debris on Instagram. I would love to see what character you create inspired by the wonderful book Nerdy Corn, by Andrew Root and Aaron Grant. I can't wait to see what you do. And even if you don't, I hope you'll create. And wherever you are, just remember that it's always a great day to create. Thank you for joining me and I'll see you on the next episode of Creating with Mr. Debris.

00;08;24;35 – 00;08;28;32

Speaker 1

I must look like a fool right now, but it's good.
