

SOUTH CAROLINA'S ADVANCED MANUFACTURING INDUSTRY SNAPSHOT

Roughly half of in-demand advanced manufacturing jobs don't require a college degree.

Over 6,000 manufacturing companies call SC home.

30% of jobs in SC are tied to advanced manufacturing.

The aerospace and automotive industries have been a major driver for SC's manufacturing growth.

There are 277,590 SC residents working in advanced manufacturing right now.

The annual salary of an advanced manufacturing job in SC averages \$71,769.

Manufacturing's impact in South Carolina is truly meaningful. It's an industry that makes world-class products that have a global reach, transforms communities for the better, and creates opportunities and prosperity for so many South Carolinians.

—SARA HAZZARD, PRESIDENT & CEO OF SOUTH CAROLINA MANUFACTURERS ALLIANCE
